

## **Wilson Announces \$263,085 Grant for the Monroe County Airport Authority**

WASHINGTON, D.C. – Congressman Charlie Wilson (OH-6) is pleased to announce that the U.S. Department of Transportation is awarding a \$263,085 grant to the Monroe County Airport Authority & Monroe County Commissioners. Administered through the Federal Aviation Administration (FAA), the money will be used to rehabilitate the apron and taxiway at the Monroe County Airport in Woodsfield, thereby enhancing the operational safety of the airport.

“Local companies use the Monroe County Airport to keep in close contact with their plants in the area,” Wilson said. “In addition, that airport sits next to the Industrial Park and I know the goal is that by improving the airport it will also help the park. This is a good investment and I know Monroe County is proud of its airport,” Wilson said.
